CORPORATE AIR TRAVEL SOLUTIONS

“WE HAVE THE SOLUTION FOR YOU”
www.jetcats.com

PRIVATE JET TRAVEL . . . Service At Its Finest!

OUR MISSION

To Conduct **Business Through Integrity** and, Always Providing **Absolute Excellence** In Customer Service.

Corporate Air Travel Solutions (C.A.T.S.) prides itself in offering you the experience and knowledge to help you attain your travel goals in the most efficient, time effective manner.

We understand when a company or individual considers using corporate business aircraft there are good reasons, and, the underlying reasons vary. Whether it is to minimize the traveling time wasted in order to maximize productivity, privacy and security concerns, the ability to conduct business enroute, flexibility of schedule, the ability to quickly reach inconvenient destinations, or some other factor, we will work with you to meet your requirements.

Executives always have a need to make the most effective use of their time and resources to maximize productivity. The majority of benefits provided by business aircraft are generally intangible, however, they are no less significant to consider when balancing them against direct financial returns on investment or expenditure.

Whether you are considering, already own, or use business aircraft for travel, we may be able to help.

Allow **Corporate Air Travel Solutions** the opportunity to provide you with a free no cost assessment of your current travel routines and practices.

We may be able to save you significant time or money!

Note: Airline security continues to be a major concern to anyone who must travel by air. While business aircraft are not immune to terrorism, the likelihood of attack is considerably less than that of a commercial air carrier.

AIRCRAFT CHARTER SERVICE

We at **Corporate Air Travel Solutions (C.A.T.S.)** are acutely aware that busy executives and individuals traveling for work or pleasure suffer long delays and difficulties when traveling on commercial airlines.

C.A.T.S. offers a convenient on-demand air charter service, with the convenience and on-time performance conventional airlines cannot deliver. A multitude of small to large category business aircraft are available to our customers that operate on our charter certificate and those of our ARG/US audited affiliates.

Customers benefit from a wide choice of aircraft to suit their individual needs which include, but are not limited to, time constraints, privacy and or security concerns and in-flight amenities. Cost factors are taken into consideration, and the best solutions implemented.

Avoid stressful security, departure and arrival delays experienced when traveling on a commercial airline by traveling on a C.A.T.S. arranged charter flight, that very often, will also save time by taking you directly to or much closer to your destination, making wasted, non productive time disappear. In addition, while enjoying the security and privacy of your own aircraft, it will allow (when required) increased productivity en-route.

Traveling by charter on Corporate or Privately owned Aircraft comes at a premium over the cost of traveling by Commercial Airline but, when everything is taken into consideration, the extra cost can be more than justified.

Being a C.A.T.S. client means you can be assured that SAFETY and CUSTOMER SERVICE will always come first.

AIRCRAFT MANAGEMENT

We offer options and solutions to meet all your Aircraft Management requirements, tailored to suit individual needs, including:

- Full Management
- Partial Management
- Charter Management

C.A.T.S. offers you as an Aircraft Owner the opportunity to offset a portion of fixed expenses by operating your aircraft on Charters under our FAA Part 135 Air Carrier Certificate.

When **Corporate Air Travel Solutions (C.A.T.S.)** charters your company or personal Aircraft, we will always do so keeping your scheduling requirements in mind. We pay you a premium which will far exceed your operating cost and thus, reduce your total fixed ownership expenses.

Since Aircraft Owner operating requirements always differ, we will tailor a management program to suit your specific needs.
